### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Frederick Bailey on January 11, 2007.

The application has been amended as follows:

Claim 19 (Amended): A portal page displayed on a computing device comprising:  
a plurality of portlets;  
a deactivation feature associated with at least one of the plurality of portlets to deactivate the portlet to preserve a selected content of the at least one portlet; and  
a reactivation feature formed in the portal in response to the at least one portlet being deactivated; and  
an electronic pane or window overlaying the at least one portlet to block all inputs of the at least one portlet while the at least one portlet is deactivated,  
wherein the deactivated portlet is prevented from being moved, closed, edited, or affected.

Claim 27 (Amended): A system to control operation of a portlet, comprising:

a client device, the client device comprising a processor and a browser capable of displaying at least one portlet;

a portal server, the portal server operatively connected to the client device;  
a portlet deactivation/reactivation feature operable on the portal server,  
wherein the portlet deactivation/reactivation feature comprises means to deactivate a selected portlet in response to operating a deactivation feature, means to reactivate a deactivated portlet in response to operating a reactivation feature, and means for launching a new portlet similar to a deactivated portlet in response to the portal server receiving a request that calls for use of the deactivated portlet if the deactivated portlet is a singleton, and  
wherein the deactivated selected portlet is prevented from being moved, closed, edited, or affected.

### **Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance:

Regarding Claim 19, the computing device limitation has been added in order make it clear that the portal page is tangibly embodied on a machine, and not merely a computer program.

Regarding Claim 27, the client device limitation has been added in order make it clear that the system is tangibly embodied on a machine, and not merely a computer program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
